#### Notes to the Condensed Interim Financial Statements September 30, 2017

(Unaudited - Expressed in Canadian dollars)

#### 1. Nature of operations and going concern

Pacific Ridge Exploration Ltd. and its wholly owned subsidiary Pacific Ridge Exploration (US) Inc. (the "Company" or "Pacific Ridge") are in the business of acquiring and exploring resource properties. Pacific Ridge is incorporated and domiciled in Canada under the *Business Corporations Act* (British Columbia). The address of its registered office is 1710 – 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The Company has not yet determined whether its properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for resource properties is dependent upon the existence of economically recoverable reserves and the ability of the Company to obtain necessary capital to finance operations including contributions from future joint venture partners. The carrying value of the Company's mineral properties does not reflect current or future value.

These condensed interim financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharges its liabilities in the normal course of business. As at September 30, 2017 the Company had a working capital of \$273,381. Completion of the acquisition, exploration and development of the Company's resource properties is dependent on the ability to obtain the necessary on going financing.

The Company intends to fund its plan of operations from existing working capital and the proceeds of future financings, but lacks sufficient committed funding for the next 12 months. Future financings are expected to be obtained through joint ventures, equity financing, and/or other means. While the Company has been successful in raising sufficient funding in the past, there can be no assurance it will be able to do so in the future. These conditions give rise to a material uncertainty which casts significant doubt on the Company's ability to continue as a going concern and, therefore, its ability to realize its assets and discharge its liabilities in the normal course of business.

These financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate. Such adjustments could be material.

#### 2. Summary of significant accounting policies

These financial statements have been prepared in accordance with Internal Accounting Standard 34, *Interim Financial Reporting* under International Financial Reporting Standards ("**IFRS**"). The principal accounting policies applied in the preparation of these financial statements are set out Note 2 of the audited financial statements for the year ended December 31, 2016 and have been consistently applied to all the periods presented.

These condensed interim financial statements have been prepared on a historical cost basis and are presented in Canadian dollars, the Company's functional currency.
